
Title: The Code of the Knight

Author: A Fellow Knight, Vahn Shino

As many of you know there are Knights out there who dont know of the Sacred Code knights must uphold. There are Knights who do good, do evil, and others who know not. This book was written so that I can enlighten others on this Code and hope that other fellow Knights uphold this code. This Code as exsisted for many decades maybe even more.

Code of the Knight

Doctrine

1. A Knights main rule is to help those that cant defend them selves. Also to help those in need.

2. Show respect towards one own brethren with in the Kingdom. As one wise man said, "Respect is a two way path"

3. Always do what your king, queen, or superior tells you to do. They know through experience whats best to do.

4. Traitors and Heritics arent to be tolerated at all. They are to be delt with.

5. Never show anger or

hate towards any one.
For giving into hate and
anger only brings you
down to the level of
those who you hate.

6. Always try to better
your self, your skills, and
your battle tactics. When
it comes down to it, in
battle that is what you
will rely on.

7. A knights solom duty
also is to protect the
King, Queen or who ever
rules the Kingdom.

8. A Knight has the
right to bear arms and
to protect his country,
kingdom, or homeland.

9. Knights are firm
believers in the virtues
and should protect all
those who live with the
virtues and destroy all
those who appose the
virtues.

10. A Knights honor is a
sacred thing. Keep your
honor in tact for its
what seperates you from the
rest

11. Never show fear
towards the enemy. For
if you show fear they
will exploit it and win.

12. Never leave home
without your armor and
weapon, in other words
always be prepared.

*Sense of Nobility *

Nobility is a certain way
that some people cant
grasp. A knight must
have a sense of nobility about
him or her. Those with an
aura of nobility about them
will get a certain level of
respect from people. How can
I act like a nobel you ask?

Well its easy sorta, Show
people respect, have a
sense of honor and
humility. One must uphold
the intentions of your
king and defend the
monarchy.

Virtues in Everyday Life

Virtues play an important
role in a knights life.
With out them a Knight
would not be a Knight.
Virtues must be embraced
and assimilated into
everyday life for a
"Virtue Knight" to be
born. A "Virtue Knight" is
a Knight who has
assimilated all the qualitys
of the virtues. Anyways
Virtues is what makes a
Knight a Knight. A Knight
lacking any virtues is not
a true knight. When one
has gotten to the point
of true assimilation of all
the virtues into your self
a Virtue Knight will be
born.
